

TESTIMONY IS  
CONCLUDED IN  
REPUBLIC CASE

Hearing of Arguments Begun  
This Afternoon in  
Uniontown.

DEFENSE MAKES REQUEST

Court Asked to Instruct Jury to Find  
Hotel Men Guilty If Convicted They  
Sold Liquor at Any Time Within  
Six Months of Trial.

Arguments in the Szakowski-Mon-  
ko liquor selling case on trial before  
Judge E. H. Report in Uniontown  
were begun this afternoon at the  
opening of court following the noon  
recess. It was expected the case  
would be given to the jury late in the  
day.

Taking of testimony was announced  
as completed when court resumed this  
morning. The forenoon was occupied  
in arguments over points of law.

A feature of the forenoon was a motion  
by the defense that the court in-  
struct the jury to find the defendants  
guilty if in its belief they sold intox-  
icating liquor any time within six  
months.

Following the testimony yesterday  
of Adolf Szakowski of New Ken-  
sington that his brother Francis, was  
on a farm near New Kensington the  
afternoon of October 8, at which time  
he is alleged to have sold investiga-  
tors Brekus and Young drinks at the  
Republic hotel and that the evening  
of October 6 the bar was closed at the  
time of the alleged sales by Jess Mon-  
ko, other witnesses in support of these  
statements were called.

M. R. Cain, a Pittsburgh real estate  
man, said he met Francis Szakowski  
at New Kensington the morning of  
October 8 and that they went to a  
farm of the Szakowski brothers near  
that place and remained there until  
3 o'clock in the afternoon. He said W.  
M. Jenkins, a mining engineer of  
Pittsburgh, accompanied the party to  
the farm. Mr. Jenkins corroborated  
the testimony.

John Yerken, an employee of the Inter-  
national hotel at New Kensington, and  
John Kirlwick, another resident of New Kensington, testified to Francis  
being there on October 8 and that he  
remained at the farm until 3 o'clock.

The above testimony was to refute  
evidence that Francis sold liquor at  
the Republic the afternoon of October 8,  
at about 1:45 o'clock.

Antonio Rondelli of Republic testi-  
fied that Jess Monk came home for  
supper at 6:30 on the evening of October 6 and remained until 8. It had  
been testified that Monk sold drinks  
at the hotel at 7 o'clock to the opera-  
toring of the Committee of One Hun-

\$55 in Cash; Edward Nicholson  
Charged With Signing Name of Bro-  
ther to Once Johnson Wrote The

A third youth named Johnson all of

charged with forgery. They were ar-  
rested this morning by Patrolman  
Thomas and Stevens, after a long  
hunt. The boys were to be given  
hearings this afternoon before Alderman  
Fred Mank.

Although Rose was the person al-  
leged to have passed the checks, his  
brothers are implicated, Johnson having  
filled out the body of the checks and  
Nicholson attaching the signature of  
his brother to them. It is charged  
City Councilman Jesse Cypher and  
Samuel Kinsbursky were the victims.

The check given Cypher was cashed  
on Tuesday evening and the other was  
given Kinsbursky at 10:30 o'clock  
Wednesday morning. The forged was  
discovered when Cypher took his cash  
to the bank. Cashing of other checks  
has not yet been reported.

Empire Novelty store, and bought a  
\$15 watch, after a 27 cent rob. He

ing with a check made out to "Henry  
Verney" for \$17.85, in payment. He  
received \$2.85 change.

Johnson and Nicholson were not  
with Rose when he made the purchase  
and cashed the check. Johnson de-  
clared he was innocent of any wrong  
doing when he filled out the body of  
the checks thinking it only "being  
the fool."

### Y. M. C. A. JUNIOR LEAGUE SHOULD GET UNDER WAY NEXT WEEK; BOYS ANXIOUS

Youngsters Waiting to Be Assigned to Teams in Junior Quintet to Be Selected.

### MEYERSDALE TOMORROW

The selection of league teams for the Baltimore & Ohio Y. M. C. A. will take place next week. For this reason a full turnout of the boys tomorrow afternoon is desired. The young basketballs have been making progress on the floor and an interesting race in the league will be the result.

Selections for my team have yet been announced, but the four quintets will be as evenly divided as possible. The boys will select their own names. In all probability some of the teams will carry the same names as were used last season.

There are a number of good prospects for a junior quintet to represent the younger members of the institution. Some new candidates are out this season, and it is not going to be an extremely difficult task to fill the boys of those who played last season. Practically all of last year's team is out for the high school varsity this season.

The "A" team will hold a practice to-night. The men had expected to go to Rockwood tomorrow evening but this game will be arranged later. A performance for Friday evening may also be arranged this week.

Candidates for the American Legion team will report at the armory tomorrow evening.

High school plays Meyersdale High tomorrow evening at the gymnasium. It will be the first appearance of the Meyersdale school team in this city.

Washington & Jefferson basketball masters have been cleared up with the appointment of last year's coach, Kus, to take charge again this season.

### ORIENT TO TAKE UP BOXING IN EARNEST

Promoter Plans Clubs in China, Japan and Philippines.

Frank Churchill Organizing Clubs in Manila, Hongkong, Shanghai and One Other City, Either in China or Japan.

It has taken a long time to get the Orient into the boxing game, but the outlook is bright now for the initia-  
tive. In the land where Acrobatics made life so unpleasant after the Yanks took hold, and also in China, where the natives have little use for athletics in any form. There have been boxing matches in the coast ports where the British and Americans have east anchor, but it remained for Frank Churchill, a popular sportsman of Manila, to put the game on a business basis and conduct it in up-to-date style, writes T. S. Andrews in Chicago Daily News.

About three years ago Mr. Churchill organized the Olympic Athletic club in Manila and since then has had the game going at a good clip, except for a brief spell lately, when some of the busy politicians tried to interfere. With so many Yankee tars and soldiers assigned to duty in the Philippines, it became an easy matter to interest them in the sport. The result was irregular boxing shows, which later developed into a regular business. It was then that Frank Churchill hit upon the idea to put boxing on a smaller plane to that in America and England. Thereupon he organized his club and interested some of the best business men of Manila in the sport. It was not confined to the Americans and British people, but to the native Filipinos as well, and they have taken to it.

There have been many natives developed into fairly good boxers, and some of them have made good in Australia, especially Stivano Janito, Andre Flores and Kito Denio. Zo Zo and Mariano Flores have also made good on the Pacific coast of late under the care of Joe Waterman, an American, who has been making Manila his home. Janito and Denio have been very successful and have beaten most of the boys they have met, including some fairly good American boxers. The Filipino is a very apt pupil and as a rule is pretty game.

It is the intention of Mr. Churchill now to organize a circuit of boxing clubs in the Orient, to take in Manila, Hongkong, Shanghai, and possibly one other city, either in China or Japan. With these oriental clubs in line it will mean an interesting trip for any of the American boxers who decide to make it in the future.

## Answer to Anti-Jewish Propaganda

PART II

Where is the habitat of these so-called Elders of Zion by whatever name they may be called? Who are the hidden sages? Whence do they come? What is the nature of their organization? The distributors of the protocols are silent on that subject. whence come these pretended protocols? There have been various versions. One Serge Nilus, of whose identity little is known, a Russian mystic and an ardent supporter of Crusism, claims to have received them in Russia in 1901 in manuscript form from a Russian officer who stated that the manuscript had been originally obtained by a lady whose name is not given and who had obtained it in a mysterious way. In what language they were written is not stated. Where that manuscript now is does not appear. Nilus asserts that he submitted the protocols to one of the Russian Grand Dukes who after examination returned them with the despairing message, "Too late."

Apparently there was no room for them in the Russian archives, and they suggested no task for the Czar's ubiquitous police to perform. In 1905 Nilus published at Tarskoje Selo a second edition of a mystical book entitled "The Great in the Little" the first edition having been published in 1901. Into this later edition he incorporated for the first time the protocols, which he claimed to have had in his possession for four years. In January 1917 he published another book under the title "It is Near" at the D. O. I. publishing to forestall the coming of the Anti-Christ and the Kingdom of the Devil on Earth. In this book he announces that he had only then learned authoritatively from Jewish sources (what they were not explained) that these "protocols" were nothing other than a strategic plan for the conquest of the world of putting under the yoke of Israel the struggle against God, a plan worked out by the leaders of the Jewish people during the many centuries of their dispersion and finally presented to the Council of Elders by the Prince of Eddie Theodor Herzl at the time of the first Zionist Congress summoned by him at Basle in August 1897. He declared that the protocols were signed by the Zionist representatives of the 3rd degree of initiation that they were secretly removed from the conference of protocols that pertained to the first Zionist Congress that were taken from the secret vaults at the main Zionist office, when it is said at present is located in French territory.

The protocols as published bear no signature. The identity of the spiritual representatives by whom they are claimed to have been signed is not known. The location of the main Zionist office and of the secret vaults from which the protocols were secretly removed remains a secret to this day. It is a matter of history that the first Zionist Congress was publicly held by Jews who came from various parts of Europe for the purpose of considering the misery of their brethren in Eastern Europe and of enabling them to find shelter in the Holy Land. Theodor Herzl was a distinguished Jewish journalist, a man of true nobility of character. He presided at the Conference, all of whose deliberations were held in the light of day. The institution that there was a 33d, or any other degree of initiation in the organization is merely a malicious effort to bring the Jews into disrepute with the Gentiles and thus to subject them to all the painful and deplorable charges that have from time to time been laid at the door of the masses, oblivious of the fact that Presidents of the United States, including Washington and many of the leading statesmen of Europe and America, have been members of that order.

Nilus and his associates belonged to the Russian bureaucracy. In 1905 through the Black Hand, that body sought in every way to crush the Jews and to prevent the liberalization of the government. The time was propitious for the perpetration of a political farce by a government that habitually resorted to the employment of agents provocateurs, a government which only a few years later against the protest of the enlightened clergy of the world ineffectually sought to convict Mendel Bellis on the charge of ritual murder. It is significant that one of his prosecutors had been active in distributing manuscript copies of the Protocols throughout the United States.

Irrespective of this history troubling with suspicion an analysis of the Protocols shows that on their face they are a fabrication and that they must have emanated from the bitter opponents of democracy. They are replete with cynical references to the French Revolution, and to the conception of liberty, equality and fraternity. They uphold privilege and autocra-  
tism. They belittle education. They condemn religious liberty. They assert that political freedom is an idea and not a fact and that the doctrine that a government is nothing but a steward of the people is a mere phrase. These are the very doctrines that one would expect from the protagonists of autocra-  
tism. Nothing can be more foreign to Jewish thought and aspiration than these brutal theories of reaction. That the Jews whose very life has been a prayer for the blessings of liberty and equality should hold them in contempt is an unthinkable.

The document throughout is farcical in its absurdities. In the Russian original there is a passage significantly omitted from the translation to the effect that the English are the descendants of the Lost Tribes of Israel and the British government is violently attacked for its liberalism. About 30 coal operators have organized themselves in a company in insurance company under the title of the Coal Operators Mutual of West Penn Yanayana. The men interested have a combined annual payroll of about \$8,000,000. Membership in the organization is to be limited to coal operators but not to members of the Coal Producers association. Within the organization are those who are eligible to do so and it is estimated the annual premium represented will exceed \$20,000,000.

The new mutual has an incorporated and officers have been elected. W. M. Henderson being vice president, C. C. McGregor, secretary and treasurer. The directors are W. M. Henderson, B. H. Cannon, J. C. Crawford, L. R. Weise, B. O. Wilson, C. J. McGregor, B. S. Hamill, James Houlihan and D. B. Blackburn. No salaries will be paid to any of the officers or directors. Compensation experts will be in charge of the details of cases.

The new arrangements will deprive compensation insurance companies and also the state compensation authorities of considerable business but the coal operators believe will result in a considerable saving to them. A life insurance plan on the principle of a stop loss order has been adopted and all risks will be re-insured.

It is needless however to elaborate on what one considers that the editor of the London Morning Post in his introduction to "The Cause of World Unrest" himself doubts the genuineness of the Protocols and that the anonymous author of that book after using them as his text, is unable to give them any higher certificate than that they may or may not be genuine. Indeed he goes so far as to say:

"We have said that this document flashes a blaze of light and go it does but whether this document is genuine or not, whether the blaze of light is true or false, can only be judged by internal evidence and probabilities. We may say at once that Nilus advances nothing in the nature of real evidence to prove the document and that his account of how it came into his hands consists of assertion only without evidence to support it."

It is needless however to elaborate on what one considers that the editor of the London Morning Post in his introduction to "The Cause of World Unrest" himself doubts the genuineness of the Protocols and that the anonymous author of that book after using them as his text, is unable to give them any higher certificate than that they may or may not be genuine. ## MUTUAL WORKMEN'S COMPENSATION PLAN PITTSBURG DISTRICT

Coal Operators Complete Organization Within Own Ranks.

## HOPE FOR A BIG SAVING

In Costs of Insurance to Them Will Rehnmark Will Ricks as a Safeguard: Other Operators Eligible for Membership in the New Association.

Details of a mutual workmen's compensation plan has been perfected by coal operators of Pittsburgh district by R. W. Gardner, commissioner of the Pittsburgh Coal Producers association, says the Pittsburgh correspondent of the Cleveland Daily News. Mr. Gardner has been working on the plan for about eight months. Radical changes in the methods of insurance against loss from injuries to workmen will result from it. A feature of the plan is that it provides for accident prevention as well as for human against loss by accidents. A safety engineering force will be employed to protect the lives and limbs of miners and other men employed in mines.

About 30 coal operators have organized themselves in a company in insurance company under the title of the Coal Operators Mutual of West Penn Yanayana. The men interested have a combined annual payroll of about \$8,000,000. Membership in the organization is to be limited to coal operators but not to members of the Coal Producers association. Within the organization are those who are eligible to do so and it is estimated the annual premium represented will exceed \$20,000,000.

The new mutual has an incorporated and officers have been elected. W. M. Henderson being vice president, C. C. McGregor, secretary and treasurer. The directors are W. M. Henderson, B. H. Cannon, J. C. Crawford, L. R. Weise, B. O. Wilson, C. J. McGregor, B. S. Hamill, James Houlihan and D. B. Blackburn. No salaries will be paid to any of the officers or directors. Compensation experts will be in charge of the details of cases.

The new arrangements will deprive compensation insurance companies and also the state compensation authorities of considerable business but the coal operators believe will result in a considerable saving to them. A life insurance plan on the principle of a stop loss order has been adopted and all risks will be re-insured.

It is needless however to elaborate on what one considers that the editor of the London Morning Post in his introduction to "The Cause of World Unrest" himself doubts the genuineness of the Protocols and that the anonymous author of that book after using them as his text, is unable to give them any higher certificate than that they may or may not be genuine. ### CHAPTER XI

#### Chained in Warhoon

It must have been several hours before I regained consciousness. I was lying among a pile of sleeping skins and furs in the corner of a small room in which were several green warhools which over me was an ancient and ugly female.

As I opened my eyes she turned to one of the warhools saying:

"He will live. O Tel."

"It is well," replied the one so idly dressed, rising and approaching my couch, "he should render one part to the great games."

And now as my eyes fell upon him I saw that he was no Thark, for his countenance and metal were not of that horde. He was a huge fellow terribly scarred about the face and chest and with one broken tusk and a missing ear. Stepped on either breast were human skulls and depending from these a bunch of dried human hands.

His reference to the great games of which I had heard so much while among the Tharks convinced me that I had but jumped from purgatory into hell.

I was strapped securely to a wild and unmanageable throat as I had ever seen, and with a mounted warhor on either side to prevent the best from bolting we rode forth at a full pace in pursuit of the column. Just before we reached the main body of troops shortly after the jedak had made camp for the night I was immediately taken before the jedak who proved to be the jedak of the horde of Warhoon.

Like the jedak who had brought me he was frightfully scarred and most decorated with the breakfasts of human skulls and dried dead hands which seemed to mark all the greater warhools among the Warhoons as well as to indicate their awful frolics which greatly transcended even that of the Tharks.

The jedak Bar Conus who was comparatively young was the object of the fierce and jealous hatred of his jedak, Dak Kova, the jedak who had captured me, and I could not but note the almost studied efforts which the jedak made to offend his superior.

He entirely omitted the usual salutation as we entered the presence of the jedak, and as we passed by roughly before the jedak he ex claimed in a loud and manly voice:

"I have brought a strong crew to wear the metal of a Thark whom I in my pleasure to have battle with a wild throat at the great games."

"He will die, O Tel," said the jedak, "so if at all fight the young ruler with emphasis and dignity."

"If at all," replied Dak Kova, "by the dead hands of my throat but I should like to see Bar Conus. No small number of your Tharks shall say in a O word that Warhoon were ruled by a real jedak rather than by a wretched bantling from whom even old Dak Kova could tell the metal of his bare hands."

Bar Conus heard the demand and in a subordinate chieftain for no instant his expression one of triumph. It was contempt and hate I then with out drawing a weapon and without uttering a word he buried himself at the throat of his jedak.

I never before had seen two green Martian warhools battle with such

a thing as the most disordered imagination could picture. They tore at each others' eyes and ears with their hands and with their gleaming tusks repeatedly slashed and gored until both were cut fairly to ribbons from head to foot.

Dak Kova had much the better of the battle as he was stronger, quicker and more intelligent. It soon seemed that the encounter was done saving only the final death thrust, when Bar Conus slipped in breaking away from a clinch. It was the one little opening that Dak Kova needed and hurling himself at the body of his adversary he buried his single mighty tusk in Bar Conus' groin and with a last powerful effort slipped the young jedak wide open the full length of his body the great tusk finally wedging in the tons of Bar Conus' Jon. Victor and vanquished rolled limp and lifeless upon the mass a huge mass of torn and bloody flesh.

Bar Conus was stone dead and only the most Herculean efforts on the part of Dak Kova's thumbs saved him from the fate he deserved. Three days later he walked without assistance to the body of Bar Conus which by custom had not been moved from where it fell and placing his foot upon the neck of the erstwhile ruler he assumed the title of jedak of Warhoon.

The injuries to Dak Kova had delayed the march so greatly that it was decided to give up the expedition which was to end upon a small Thark community in retaliation for the destruction of the bugaboo which after the great games and the entire body of warhools ten thousand in number turned the city of Warhoon.

We reached the city of Warhoon after nine days march and I was lame but ly cast into a dungeon and heavily chained to the floor and walls. I had been brought to the inner walls but owing to the utter darkness of the place I do not know whether I in these days or weeks or months so sound reached me from the world above and no word would my master voice tell when my food was brought to me although I at first bombarded him with questions.

I found all the lizards and mantids lurking for these awful creatures who had pinned me in this horrible place so I centered by my torturing research upon this slab of sandstone which refused to me the entire horde of Warhoons.

I had no food but he always arrived with his dirk to cut to where I could place the food within my reach and he stopped to place it upon the floor his head was about on a level with my breast. So with the culling of a madman I backed into the far corner of my cell when next I heard him approaching and gathering a thick stack of the great chain which held me in hame I waited his coming touching like some beast of prey. As he stopped to place my food upon the ground I swung the chain above my head and crushed the links with all my strength upon his skull. Without a sound he slipped to the floor stone dead.

Tugging and chattering like the idiot I was fast becoming I fell upon his prostrate form my fingers feeling for his dead throat. Presently there came in contact with a small chain at the end of which dangled a number of keys. The touch of my fingers on these keys brought back my reason with the swiftness of thought. No longer was I a living automaton but a sane reason the man with the means of escape within my very hands.

As I was about to spring to remove the chain from about my victim's neck I glanced up into the darkness to see a pair of gleaming eyes fixed in wrinkling upon me. Slowly they approached and slowly I shrunk back into my corner. I crouched holding my hands palm out before me and suddenly reached the dead body at my feet. I saw slowly they retreated but this time with strange rattling sound and finally they disappeared in some black and distant recess of my dungeon.

CHAPTER XII

Battling in the Arena

Slowly I regained my composure and finally essayed again to attempt to remove the keys from the dead body of my former jedak. But as I tugged I out into the darkness to see it I found to my horror that it was gone. Then the truth dashed upon me the means of those gleaming eyes had dragged my poor mate from me to be devoured in their neighborhood, but as they had been waiting for days for weeks for months through all this awful eternity of my impulsion to do my dead jedak to their east.

For two days no food was brought me but then a now messenger appeared and my last ration went on as before but not again did I allow my reason to be overruled by the power of my jedak.

Shortly after this episode another prisoner was brought in and chained
